# Price List to the Connection Agreement for Sponsored Access Users

## Preamble

This Price List governs the fees charged by Deutsche Börse AG and forms an integral part of the Connection Agreement for Sponsored Access Users.

The terms and conditions reflected in this Price List shall be deemed part of the Agreement, and to the extent such terms and conditions conflict with those, Section 1(2) of the GTCs shall apply. All capitalized terms used above and below in this Price List are defined or referenced in Section 19 of the GTCs.

## 1 Bandwidths and Co-Location

No fees are charged for the setup and termination of a connection component. Termination is possible effective as of the end of a month. Monthly fees apply to connection components that are set up on the first day of the relevant calendar month. This applies regardless of whether the SpA User has already used the connection component or conducted a functional test.

For Co-Location 2.0 connections, DBAG may charge a monthly connection fee, even if the provision and termination of the Co-Location 2.0 connection were carried out within the same month.

With respect to the Leased Line, iAccess or co-location service, the SpA User may select the following bandwidths.
